Will You Do Your Cooking on a Gas Range Next Summer?

To all people who will put in a Gas Cooking Range during the months of March and April, 1905, the Gas Company will furnish them with gas for its use entirely FREE OF CHARGE for one month after the Range is installed. This will give the people an opportunity to become accustomed to the use of the Range at the expense of the Company, while the Company will be able to keep their men employed during these dull months to the advantage of all, as after May 1st the Company will be especially busy in extending their street mains and making other permanent improvements. Liberal terms will be made to all purchasers of Ranges when necessary. Call at the office, No. 213 North Main Street, opposite Depot Square, where you will always find a full supply of Ranges and Gas Fixtures, or drop a postal to the Company and a representative will call on you.

L. M. AVERILL,

NO VOTE IN MONTPELIER.

Present Indications Are That City Will
Vote No License by About 100
Majority.

Montpelier, March 6.—The present indications are that this city will go no-license this year by perhaps 100 votes. The license men are doing more work the past few days and still may be able to shift the town to the "Yes" column. The no-license campaign has been very active for two weeks, while there has been very little work put in by the "Yes" people.

Various voters in the city who were believed to be on the doubtful side, received in their mail recently a circular letter from the no-license committee. The circular says among other things that the "merchants, who are interested in order upon the streets and who feel the financial pulse of the city, are overwhelmingly in favor of no-license, in order to improve conditions by a trial of the other side of the law."

Three months ago the indications were that the town would have gone no-license by 250 majority. One well-known citizen expressed himself on the probable results this morning after this fashion: "I feel like the old lady—sometimes I think it will and sometimes think it won't."

In 1903 the yes vote was 904 to 353 for no-license, and in 1904 the yes vote was 690, to 650 no votes.

The Socialist Candidate.

Editor Barre Daily Times: Will you please allow me space in your valuable paper to say a few words to the voters as Socialist candidate for the office of mayor, feeling that your many readers ought to know what our party stands for, I ask you to read these few lines. We believe and know that the emancipation of the workingclass from the poverty of capitalism can and only will be accomplished by themselves through the ballot. All political parties (other than the Socialist) stand for the continuance of the capitalist system, with its increase of murders, suicides, bankruptcies, swindling, adulteration of goods, sweatshops, child-labor, raising the price of the means of life, and wage-reductions. The Socialist party which I represent stands for a consolidation of all the means of production and distribution, to the end that all may enjoy the product of their labors, and reduce to a minimum their fear of want, shared alike by all wage-earners. This is as concise a statement as I can make at this time, and I would ask all who believe in the above and our programme to go to the polls tomorrow and cast their vote for Socialist candidate for mayor, not for the man so much as the principle involved.

W. SCOTT.

Card of Thanks.

Japanese Lacquer.

Japanese lacquer is obtained from the urushi or varnish tree, which is of fine proportions when full grown. An incision is made through the bark, and it yields a rich, milky, glutinous juice, from which the Japanese make their celebrated varnish.

Spider's Lines.

An instance of the durability of spider web is found at the Allegheny observatory, where the same set of lines in the micrometer of the transit instrument has been in use since 1859.
